PROFESSIONAL SUMMARY

Senior Product Designer with 6+ years of experience in B2B and B2C digital products, working on complex systems, fleet management, fintech and enterprise software. I lead the process end to end, from discovery (desk research, stakeholder interviews and flow mapping) to high-fidelity interfaces and scalable design systems. I use AI (Claude and Figma MCP) to speed up research synthesis, design system audits and prototype variations, which frees up more time for the decisions that need human judgment. My earlier background in software development and IT management brings a strong technical perspective to my collaboration with engineering.

SKILLS

- Discovery & Design Research
- Benchmarking & Competitive Analysis
- AI Applied to Design (Claude · Figma MCP)
- Design Systems (Creation & Evolution)
- UX Research & Usability Testing
- Figma Prototyping (Wireframe to Hi-Fi)
- User Journeys & Information Architecture
- Product & Engineering Collaboration
- Design Tokens & Auto Layout
- Stakeholder Management
- Accessibility WCAG 2.1 AA
- Agile Methodologies (Scrum · Design Sprint)

PROFESSIONAL EXPERIENCE

Senior Product Designer · Opah IT (client: Volkswagen) Nov 2025 - Jul 2026

Researched the daily routine of fleet managers to turn complex vehicle data (fuel consumption, emissions and driver behavior) into clear interfaces for operational and management profiles. Built Figma prototypes from wireframe through user validation to engineering handoff. Contributed to the evolution of the design system with color and typography tokens and Auto Layout components, ensuring visual consistency across platforms. Worked closely with product and engineering in agile ceremonies: daily, planning, review and retrospective.

Senior Product Designer · Tropiko Apr 2025 - Oct 2025

Led discovery for the global certification system, mapping international regulations and multiple approval levels before proposing the redesign. Created the company's first design system, including tokens, reusable components and WCAG 2.1 AA accessibility guidelines. Designed wireframes and high-fidelity prototypes in Figma, with a structured handoff process to engineering. Ran research and usability tests, producing satisfaction metrics that informed product decisions.

Product Designer · Stefanini Brasil (client: FAPESP) Oct 2024 - Apr 2025

Ran discovery with researchers and administrators to understand complex data flows before designing interfaces for managing scientific and administrative processes. Created a requirements toolkit that sped up client approval of flows by 40%. Established modular visual standards and component libraries, strengthening design system consistency.

Product Designer · Try Consultoria (Fiserv · Merchant Acquiring) Feb 2024 - Oct 2024

Carried out benchmarking and competitive analysis to support design decisions for merchant acquiring and access management products. Designed flows and interfaces in Figma based on discovery findings, taking an active part in CX and adapting work to the Fiserv design system. Mapped the Talent Acquisition journey and proposed usability improvements to the hiring process.

UX Designer · MJV Technology & Innovation Feb 2022 - Mar 2023

Desk research, benchmarking and design sprint for the Claro Pay Empresas product. Wireframes and prototypes in Figma with structured handoff to engineering.

UX Designer · Semantix

Feb 2021 – Feb 2022

Market research and stakeholder interviews for clients such as Mercedes, NBA Store, New Era, Oba Hortifruti and Ultragaz. User journeys, navigation flows and prototypes in Figma.

Product Designer · Odzaine Studio

Mar 2020 – Feb 2021

User research, heuristic evaluations, information architecture, component library, wireframes and high-fidelity prototypes.

Product Designer · ALC Usabilidade

Oct 2019 – Mar 2020

Projects for Izifit, PagueVeloz and Ferias & Co. (RDC Viagens): desk research, benchmarking, in-depth interviews, facilitation of Product Discovery sessions and high-fidelity prototypes.

EARLY CAREER

Previous background in project management, IT and software development, which today supports close collaboration with engineering teams.

- **Project Manager** · A Madre Estúdio Digital (Sep 2019 – Oct 2019)
- **Project Manager** · Giungla (Jul 2019 – Aug 2019)
- **Sales Analyst** · Grupo TOP (Jan 2018 – Jun 2019)
- **Assistant Project Manager** · Fbiz (Jul 2016 – Dec 2016)
- **Project Manager** · Inkuba, on the DuPont, Unilever, Diageo, Nestlé and AlmapBBDO (Volkswagen and MAN Trucks) accounts (Oct 2015 – Jul 2016)
- **IT Analyst** · Decathlon International (May 2014 – Jul 2015)
- **Software Developer** · Itaú Unibanco (May 2013 – Jul 2014)
- **Systems Analyst** · Multirede (Jan 2012 – Jun 2013)

EDUCATION

Bachelor's Degree in Advertising

Universidade Presbiteriana Mackenzie · Jan 2013 – Dec 2014

Bachelor's Degree in Information Systems Management

Universidade Presbiteriana Mackenzie · Jan 2011 – Dec 2014

CERTIFICATIONS

- Design Thinking: Integrated Course Program
- UI/UX Design · Google / Coursera
- ITIL Foundation V3
- The Art of Storytelling
- C# · Microsoft
